

Bag Riders, an industry leader in automotive e-commerce, is searching for a talented and passionate individual to join our team as a Junior Full Stack Developer. We offer competitive compensation, great benefits and a fun, fast-paced work environment.

Position Summary

The individual in this full-time hourly position is responsible for contributing to the ongoing development and improvement of Bag Riders ecommerce web store software.

Essential Functions

- Writing excellent, well-documented code adhering to best practices
- Maintaining and improving the Bag Riders ecommerce website code base
- Analyzing software problems and determining then implementing proper solutions
- Receiving feedback from QA colleagues and making changes as necessary
- Assisting colleagues in separate departments as needed, such as providing HTML markup for static content pages

Required Skills and Abilities

At least 2 years of experience developing PHP applications

At least 2 years of experience developing frontend functionality with JavaScript, HTML and CSS

Why work for Bag Riders?

Bag Riders is proud to offer competitive compensation, great benefits and a fun, fast-paced work environment. That's great and all, but we hope that a paycheck will be just one of many reasons why you will love working at Bag Riders. At Bag Riders, we celebrate teamwork and believe that every person is chock full of greatness. We achieve success because of what we accomplish together, not what any one person accomplishes alone. We encourage new ideas and to challenge whatever is in place if you believe it can be done better. We hope that you will become a valuable member of our team and grow with us for years to come. This position is an outstanding opportunity to be part of a rapidly growing, mature business that fosters outstanding professional growth in an environment rich with bright, passionate, hard working individuals.
